

French Golf Apparel

AGEC / Triman Review Checklist

Order / product model: _____ Reviewer: _____

A production planning checklist. Confirm the applicable legal scope and retain supporting records for the actual product.

01 AGEC Article 13 - product information

- ☐ Confirm business thresholds and the product-model scope of the environmental information requirements.
- ☐ Collect the applicable recycled-content, recyclability, substance, traceability and microplastic information.
- ☐ Link the approved Fiche Produit to the model and arrange consumer access where required.

02 Triman / Info-Tri - approved artwork

- ☐ Use current authorised Refashion textile artwork and verify dimensions, placement and any permitted exceptions.
- ☐ Review textile instructions and packaging sorting instructions separately.
- ☐ Approve the final vector files and a physical label or hangtag proof before production.

03 REACH - material-specific evidence

- ☐ Identify applicable Annex XVII restrictions and SVHC information duties for fabrics and trims.
- ☐ Retain relevant supplier declarations and product or material test reports.
- ☐ Check that records identify the selected material, supplier and order.

AGEC / Triman Review Checklist

Order / product model: _____ Reviewer: _____

A production planning checklist. Confirm the applicable legal scope and retain supporting records for the actual product.

04 French labels & producer responsibilities

- ☐ Approve French fibre names and percentages under EU Regulation 1007/2011.
- ☐ Include suitable care guidance; check usage rights if care symbols are used.
- ☐ Identify the responsible French-market producer and its EPR / Refashion arrangements.
- ☐ Keep the units, tonnage and composition data needed for the producer declaration.

05 Sustainable-material claims - where used

- ☐ Review the scope and validity of relevant GRS, GOTS and OEKO-TEX records.
- ☐ Keep traceability evidence for recycled or organic claims on the finished product.
- ☐ Match any DWR or other finish claim to the relevant supporting information.

06 Shipment release & final approval

- ☐ Match invoice, packing list, origin and commodity-code details to the order.
- ☐ Retain the approved labels, material records and inspection results in one file.
- ☐ Confirm importer, customs and delivery responsibilities before dispatch.

Official review references: French Ministry of Ecological Transition - AGECE product information; Refashion - textile Info-Tri and EPR guidance; DGCCRF - clothing labelling. Requirements depend on the product and responsible business. This checklist does not replace those official rules.
